Subject: RE: ES&T letters

Andy,

Below is the title search that I found-- I am not sure if this is the same record that you are questioning. I searched my listing under awaiting and progress tabs and could not find either of the titles. Therefore I will assume that I did not create this record. I also checked to see if it was in SI database and it is not in there also. Unless you can give me the STICS ID number I am not able to assist you. If I in fact did not create the record I am still not able to assist you. I suggest you contact Brandy Manders and maybe she will be able to assist you. I have cc'd Brandy on this email.

Brandy--Can you assist Andy with his request????

ORD-018545 Mei Sun Legacy and emerging perfluoroalkyl substances in the Cape Fear River Watershed of North Carolina: Occurrence and fate during conventional and advanced water treatment processes Peer Reviewed N/A - Not Applicable

I did a search for the title listed below and there were no results.

"Traditional and emerging perfluoroalkyl substances in the Cape Fear River Watershed, North Carolina: Occurrence and fate during conventional and advanced water treatment processes

Subject: RE: ES&T letters

Jan,

We'd like to find out if our paper entitled "Legacy and emerging perfluoroalkyl substances are important drinking water contaminants in the Cape Fear River Watershed of North Carolina" is cleared for submission to the journal.

It was probably previously entered into the system with a different title:

"Traditional and emerging perfluoroalkyl substances in the Cape Fear River Watershed, North Carolina: Occurrence and fate during conventional and advanced water treatment processes" is probably the name used in STICS.

Please let us know if we can submit this to the journal.

Thank you very much,

Andy

Subject: Re: ES&T letters

My understanding is that Gillespie has cleared. Please confirm with Jan / STICS.
